Features

Eco-Friendly

Anti-Moth

Waterproof

Non-Formaldehyde

Easy of Install

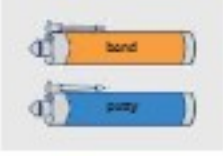
Scratch Resistant

Installation Preparation

1. Tape Measure and Pencil

2. Fine Grained Sandpaper

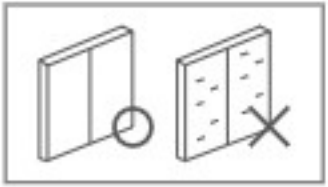
3. Putty Knife



4. Bond or Adhesive and Putty

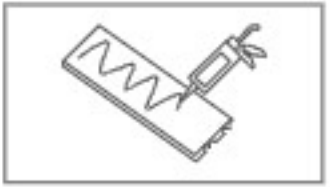
5. Mitre Saw / Mitre Box and a Hacksaw

Installation



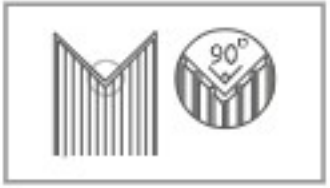
Pre-work with plaster board or plywood is recommended before the construction. Please remove wallpapers on the walls before the construction.

Circular saw can be used for cutting



Apply nail free glue on the back of wall panel

Wall panel can be installed in both horizontal and vertical direction. Apply air-tacker on the edge of the tongue to hide the pin-marks.



For corner, combine the two grooves

Coordinating mouldings can be used for clean and nice finish
