COMPANY PROFILE

M-36 provides the surfaces that fuse beautiful design with purposeful functionality. Our products provide versatile surfacing solutions that are inspired by and adapt to the way people live, work and play.

Because we spend around 30 per cent of our life in buildings, interior spaces have an essential impact on our well-being. This is the reason why ecologically safe materials are just as important as nature.

We supply design enhancing and durable surfacing products used in healthcare, hospitality, retail, office, education and more.
